

# ECS Configuration Change Request

CCR No. <u>98-0075</u>	Logged Date <u>1/22/98</u>	Rev. <u>-</u>	Request Type <u>CCR</u>
Priority    Routine <input checked="" type="checkbox"/> Urgent <input type="checkbox"/> Emergency <input type="checkbox"/>	Affected Release <u>B</u>		Change Class <u>II</u>
<b>Title (description)</b> Do not automount libraries and COTS software used during operations, for reliability reasons.			
<b>Documents Affected</b> Release B Goddard Space Flight Center (GSFC) DAAC Baseline HW/SW Mapping (920-tdg-002); corresponding documents for other ECS sites (920-tde-002, 920-tdl-002, 920-tdn-002, 920-tds-002)		<b>Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference</b>	
RTM Change <input type="checkbox"/> Start New Baseline <input type="checkbox"/>			
<b>Problem</b> Current baseline specifies that some widely-used COTS products will be automounted. For reliability, it is unacceptable for an ECS server process to depend on automounts during system operations, and it is undesirable for an operational ECS workstation to depend on automounts.			
<b>Proposed Solution</b> Modify system configurations, and modify the affected documents, so that the following products are not automounted: <ol style="list-style-type: none"> <li>1. Rogue Wave shared libraries (tools.h++, dbtools.h++, net.h++)</li> <li>2. Sybase Open Client shared libraries</li> <li>3. Perl</li> <li>4. DCE shared libraries</li> <li>5. Standard shared libraries (e.g. libC, libintl, and other libraries usually found in /usr/lib)</li> <li>6. X/Motif shared libraries</li> </ol> <div style="text-align: right; margin-top: 10px;"><i>Need Date: 3/31/98</i></div>
