23. Problem: (use additional Sheets if necessary)
Need an SGI client in an area where there is a Legato backup server so testing on IRIX 6.5 may be completed.
Legato 5.5.2 server will be needed to test on Solaris 2.5.1, then upgrade to Solaris 7 and test, then to Solaris 8 and test again

24. Proposed Solution: (use additional sheets if necessary)
Install the old t1icg02 into the VATC SMC as t1smg05. This system is already configured as IRIX 6.2 and has the client installed. Once testing with 6.2 is complete, upgrade to IRIX 6.5.x.

25. Alternate Solution: (use additional sheets if necessary)
test in the VATC or PVC

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
May have imcompabilities with the software and platforms
