23. Problem: (use additional Sheets if necessary) DCE Cell Manager Host Agent COTS will not be supported on IRIX 6.5. This COTS product is currently installed on most IRIX 6.2 hosts at version 1.62. This version will not be compatible with IRIX 6.5 and needs to be removed during the IRIX 6.5 transition. Uninstall instructions are needed for this implementation.						
24. Proposed Solution: (use additional sheets if necessary) A Technical Directive has been written to provide uninstall instructions for the removal of DCE Cell Manager Host Agent on SGI IRIX 6.5 implementations. The baseline change for the actual removal will be made when the IRIX 6.5 baseline for the DAACs is delivered. The COTS product is to be removed on SGIs ONLY immediately before the upgrade to IRIX 6.5 Operating System.						
25. Alternate Solution: (use additional sheets if necessary) Allow an incompatible COTS version to remain on the upgraded IRIX 6.5 systems.						
26. Consequences if Change(s) are not approved: (use additional sheets if necessary) An incompatible COTS version will remain on the upgraded IRIX 6.5 systems.						
27. Justification for Emergency (If Block 15 is "Emergency"):
