NCR#	Inputs/Actions:	Outputs/Expected Results:	Pass/Fail/Not Tested	Comments:	
40624	Submit S4 request to PDS, created an 8mm media thru PDS. Ran EcPdSaQCGui on the media.	EcPdSaQCGui successfully verify the S4 pre-staged data order.	Pass		
40389	Use EcOmSrCliStart to submit Browse granules to PDSIS	Order completed	P	Could not submit PH granules thru OMS Cli driver. Was told by Mike Primett this may be related to an reported ncr in OMS that OMS can't not handle PH granules. So I end up settled testing with Browse granules.
